

A better way to manage your construction projects: **Easily and Affordably.**

Web-based tool.

Procore makes it easy to schedule, communicate, and confirm every job detail with your team. Project team members can access key project information from any internet connection. Procore increases project efficiency, saving time and money.

Create accurate schedules.

Keep schedules up-to-date (and paperless) and share them online.

Close RFIs faster.

Assign RFIs and send them out on Procore—automatic email reminders are sent if the RFI isn't closed by the due date.

Ensure accountability.

Procore documents every communication—RFIs, punchlists, project emails—providing clear records of who said what.

Manage meeting agendas and minutes.

Any team member can initiate a meeting or review meeting notes.

Organize documents and images.

Share downloadable photos, permits, and drawings with anyone on the project team.

Create daily job logs.

Keep up-to-date job logs on every project, complete with automated weather data, sites visits, work completed and more.

Track change orders.

Know what changes have been approved.

Procore is easy!

If you can do email you can do Procore. Your whole team can be up and running on Procore in a day.
