

Industry Leading Estimating Bundle!

With this premier estimating bundle from CBSNW, you simply point and click to take off quantities right on your new large screen flat panel. Calculate your bids easily, using database specific to your industry. Bundle includes:

- 1 use of Sage [Timberline](#) Standard Estimating
- 1 use of [PlanSwift](#)
- 1 industry specific database*
- 28-inch LCD HDTV LCD flat panel
- Financing available, OAC
- \$3,950**

Industry databases available

- GC Self Performed
- GC Metric
- Commercial Framing
- Masonry
- Drywall
- Commercial Painting
- Commercial Concrete
- Residential Concrete
- Wood Framing
- Residential Roofing
- Underground Utilities
- Streets & Utilities
- Structural Steel
- Residential Home Builder
- Commercial Residential Landscape

*One database from the list is included in the bundle price, others are available for a fee. You will need to update the data base with current pricing for your area/items. Call for details.

**Price includes shipping of the HDTV but does not include sales tax or shipping fees for the software. Price does not include support contract fees which are a required component of Sage Timberline Estimating, the cost of which will vary depending upon your current support status with Sage. If you are not currently a Sage customer, your support cost would be about \$300.
